

GCG LTD - Asphalt Mixing Plant

GCG LTD – invested in the installation of the new asphalt plant with upgraded electric system and in installation of a wastewater treatment plant. The company furthermore invested in improving HSE standards such as provision of PPE to the operators, providing H&S training and medical testing for employees, conducting workplace risk assessment and inspection and installation of fire safety equipment. With these investments, the company now has a modern production plant, reduced personnel safety risk, reduced pollutant emissions and increased product quality, making GCG LTD one of the cleanest asphalt production plants in Europe.
