

# Case Study

GEORGIA Issued: September 2017

**Fashion House Materia** 

Fashion House Materia, a producer of professional and high fashion garments, invested in a new multi-storey production building as well as in production equipment. The new building includes an elevator, a modern HVAC system and more light and space, which has improved the company's H&S and increased employee motivation. Further investments were made in production equipment, improving the company's product quality and with that its export capability. The investment was realized with a EU4Business-EBRD Credit Line Ioan. After successful project verification, the company received 15% of the Ioan amount as a grant cashback, funded under the EU4Business Initiative of the European Union.

## **Investment Details:**

🏠 European Bank
