

LTD Caucaspack Invests in Eco-friendly Production of Packaging Material

LTD Caucaspack, a specialist in packaging material invested in new production machinery and auxiliary systems allowing for the production of eco-friendly packaging material of the highest quality, including bio-PET, which degrades more quickly than standard plastics. The new production line is complemented by the company's efforts in educating customers in the importance of recycling. With the high quality packaging and its efforts in supporting a more environmentally sustainable approach, Caucaspack is not only aligning its own production and Health and Safety with European standards. The company also provides an important service to its customers by enabling them to use packaging for their products, which is suitable for product sales in Europe. After project verification, the company received 15% of the loan amount as a grant cashback, funded under the EU4Business initiative of the European Union.

Invested in:

- TM-800/4nFPCS Thermoforming Line
- 12 CVT Egg Tray Thermoforming mould
- Auxiliary Systems (compressor, chiller, etc)

Invested Volume:

- Loan Amount: EUR 451,359.66
- Grant Amount (15%): EUR 67,703.95
